## GAME STYLE 1

1. Find a snack with little pieces like saltans, grapes or cereal.
2. Place a snack on each number on one of the player cards.
3. Shuffle the caller cards.
4. Race your toddler to find the number and win the snack.

I liked to win every second call so my toddlers competitive edge really came out and kept her in the game. As she got better I let her win more and more.

## GAME STYLE 2

1. Give each player a pack of cut out caller cards.
2. Call 'GO' and each player must place the corresponding caller card numbers to the numbers on their card.
3. First player to complete their card correctly wins.
